THE NAME THAT IS A
GUARANTEE
OF QUALITY

Our passion has always been about more than just making guitars. It has been about making music. It has been about understanding what is inside every musician that makes them want to, have to, express themselves. And understanding the myriad musical styles, where they are going and how they might develop. For over one hundred and twenty-five years we have continually looked for new and better ways to help players take their music farther.

Epi Stathopoulos, our founder and namesake, was always on the forefront of music. He was the first instrument maker to embrace Jazz music and led the industry away from mandolin and banjo production and into making guitars. At the age of twenty-four Epi obtained his first of many patents that would change fretted instrument construction forever. The extension truss rod design, the first pick-up with individual pole pieces, and the Tonexpressor – the precursor to the modern day "wah-wah" pedal – were all Epiphone innovations. But perhaps the greatest contribution to guitar making came in 1941 while Les Paul was experimenting in the Epiphone factory. These experiments led to the Les Paul "Log" and the first solid-body electric guitar.

Epi's vision of the future of music and guitar, as well as the importance of his work could be seen by, and in, those who chose to play an Epiphone. Musicians who themselves were visionaries. George Van Epps, Harry Volpe, Howard Roberts, Joe Pass and other Jazz players would make music history with an Epiphone guitar, as would Blues legend, John Lee Hooker. And the Beatles, who recorded Paperback Writer, Ticket To Ride, and the most recorded song ever written, Yesterday, with Epiphone guitars they purchased in 1964. It is an incredible legacy that continues today with Noel Gallagher, Lenny Kravitz and other artists who choose to make their music with an Epiphone.

The same spirit of innovation that drove the Stathopoulos to start pushing the boundaries of guitar design over one hundred and twenty-five years ago is alive and well at Epiphone today. Styles of music will continue to evolve, new technologies will come and go and new players will continue to take music and guitar in new directions. But our passion for making music and our mission of providing musicians with a great instrument they can rely on to express themselves will always remain constant.

emperor regent™

> Huge body, huge sound, great personality. The Regent's Spruce top and floating mini-humbucker make this guitar an out and out jazzer with sweet tone!

One of the "100 Best Buys" *Guitar Player*, Nov, 1997

joe pass emperor II™

Authorized By & Designed In Cooperation with Joe Pass

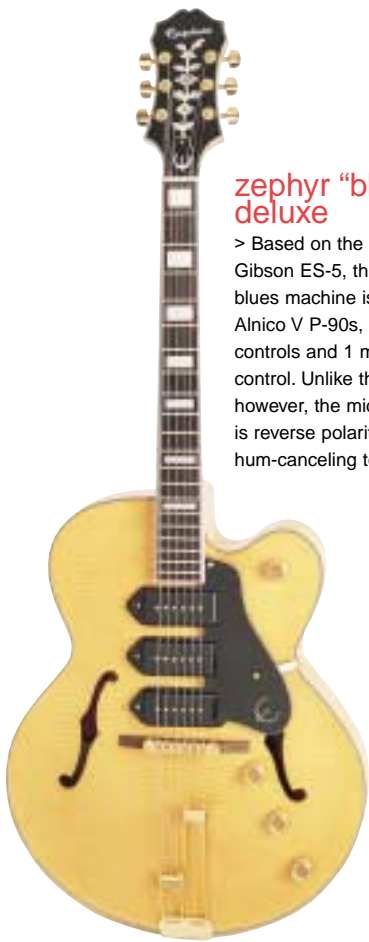

> When the late, great Joe Pass played the guitar, people listened. Pick up an Emperor II and you just might get a similar response! (Also available Left-Handed)

broadway™

> A big body for all occasions. Just like the Regent, but with twin humbuckers, 3-way switch, 2 volume and 2 tone controls.

zephyr "blues" deluxe

> Based on the legendary 1949 Gibson ES-5, this big bodied blues machine is fitted with 3 Alnico V P-90s, 3 volume controls and 1 master tone control. Unlike the original however, the middle pickup is reverse polarity for hum-canceling tone!

alleykat™

> If you're looking for a guitar that's as unique as you are, check out the AlleyKat. Like the FlameKat™ it features the *Kat-Series* small, semi hollow-body design. But this guitar features a Tune-o-matic bridge, StopBar tailpiece and a combination of a '57 Classic Humbucker in the bridge position and a "New York" Mini humbucker in the neck position. The result is a guitar with great sustain, comfort and sound! Available in HS, TB and VS.

zephyr™ regent

> Simply beautiful! That's how to describe this classic archtop featuring 1 humbucker, 1 volume and 1 tone. Not a lot of hardware, just great jazz tone!

flamekat™

> One of our cooler Epiphone Designs! The ultimate road-rocker, equipped with 2 "New York" mini-humbuckers and now sporting a **Licensed Bigsby Vibrato!** With Dice knobs, Dice Inlay and Ebony finish with Flame decal... It's so Hot it's Cool!

wildkat™

> Like the AlleyKat™ and the FlameKat, the Wildkat features the small semi-hollow body.

And we've added two Alnico V P-90s for classic tone and now featuring a **Licensed Bigsby Vibrato**. What a sound!

noel gallagher supernova™ & union jack supernova™

> Noel Gallagher, guitarist for Oasis - Britain's #1 rock band - worked closely with Epiphone engineers to perfect his Signature Model. It looks smashing and plays like budda! ...Several years ago, Noel had a Union Jack flag custom painted on his Epiphone Sheraton. In the past few years, many have tried to copy his idea but now, here's the "real-thing." Presenting... the Noel Gallagher Union Jack SuperNova complete with all the same great features of the SuperNova but now with the distinctive red, white and blue British flag.

ES-295

> Authorized by Gibson USA.
The ultimate rock-a-billy box, with cream P-90s, Gold finish and now featuring a **Licensed Bigsby Vibrato** unit this baby will give you wang for your twang. Based on Gibson's ES-295 introduced in 1952.
It's good to be back!

> Long live King!.. of the Blues that is, *Mister B.B. King!* Some of B.B.'s personal touches on this signature model include a TP-6 fine-tuning tailpiece, semi-hollow body design with no soundholes and that famous name on the headstock. With twin humbuckers, Vari-Tone switch, stereo output and awesome looks that are synonymous with the blues... this lady is sweet!

jorma kaukonen riviera™ deluxe

> After being so impressed with the sound and quality of his friend Jack Casady's signature bass, Jorma Kaukonen of Jefferson Airplane and Hot Tuna decided that he wanted Epiphone to make his signature instrument too! Built to Jorma's specifications, the Riv Deluxe sports, Epiphone '57 Classic, Alnico-V pickups, Gold hardware, Grover machine heads, Dot fret markers and Gold **Licensed Bigsby Vibrato!**

riviera™
> With twin "New York" mini-humbuckers and solid center block, the Riviera maintains vintage appearance and thoroughly modern tone with reduced feedback.

casino™

> One of Epiphone's most famous models, the Casino has changed little over the years. The combination of the hollow body and twin P-90's deliver a warm yet bright sound that sparkles!

the dot™

Authorized by Gibson USA

> Everyone wants to own a Gibson ES-335 "Dot." Now everyone can with this Epiphone, authorized by Gibson USA. THE original ES style semi-hollow body introduced in the spring of 1958.

john lennon limited edition usa casinos

> In cooperation with Yoko Ono, Epiphone proudly introduces two Limited Edition John Lennon Casinos. The John Lennon 1965 Casino is a reproduction of the guitar as John originally purchased it with the sunburst finish and stock hardware. In 1968, the newly sanded down to the bare wood, "natural" version of his Casino can be heard on the recording sessions for "The White Album." The John Lennon "Revolution" Casino is a reproduction of the "stripped" guitar as it remains today. A portion of the proceeds from the sale of each will be donated to The BMI Foundation, Inc. for the John Lennon Scholarship Fund which supports music education.

john lee hooker
1964 sheraton™

john lee hooker limited edition usa sheratons

> There was only one John Lee Hooker, father of foot-stompin boogie, the Boogie Man, the Crawling Kingsnake. He introduced to the world a chugging country rhythm behind amplified blues and a gruff emotional voice. And on top was a starkly intense guitar, that greatly influenced a number of young rock and rollers in the 60s and 70s including the Rolling Stones, the Yardbirds and ZZ Top. John Lee was associated with a variety Epiphone archtops, but most closely with the '64 Sheraton. This "outdid" ES-335 has been duplicated exactly, to the original 1964 specifications... Boogie on!

SEVENDUST

john connolly les paul® custom

> When John and Vinnie of Sevendust asked us to produce a couple of custom LP's based on the Epi's they were already playing, we were happy to oblige. What they came up with is as distinctive as their own personalities and signature sounds!
 > John's JC-LP Custom is a combination LP Standard and LP Custom with a Maple fingerboard, topped off with a Flame Maple top, Flame graphic and black hardware! And he didn't stop there. He added a brass nut, Grover® machine heads and "Made in the USA" Humbuckers designed specifically for him, to get the exact sound and sustain he wanted. He loved the results and so did we!

les paul® classic plus

> Authorized by Gibson USA. The Les Paul is synonymous with rock and roll, and no other guitar gives you the sustain and power of a Les Paul. The LP Classic Plus is back with the same Flame Maple top as the Standard Plus but with Open Coil humbuckers... A Classic!

les paul® standard plus

> Its Solid Mahogany body and Flame Maple top generate the full range of the musical spectrum, from guttural lows to crystal highs. The Les Paul Standard Plus has been the driving force behind the blues/rock explosion of the 60s, the southern rock sound of the 70s and provided the signature sound of rock bands of the 90s.

And now, at the beginning of the 21st Century, it's still the industry standard... Nothing else even comes close!

'56 les paul® goldtop

> When the first Les Paul debuted in 1952, you could get it in any color as long as it was *gold*. Feel over 50 years of guitar heritage beneath your fingers with tone that comes from a "classic" set-up; P-90s and a StopBar tailpiece!

jack casady signature bass

> Finally! A long-scale, semi-acoustic electric bass with tone so "pure" that we dare you to compare it to any other bass! At the heart of this break-through design is the new, low impedance JCB-1 pickup capable of producing a "natural" bass tone that cannot be achieved using normal high-impedance pickups and active electronics.

viola™ bass

> From the golden age of British music, comes the bass that looks as good as it sounds!

thunderbird™ IV bass

Authorized by Gibson USA

> Gibson's most distinctive bass features the "reverse" body styling and dual humbuckers!

EB-3™ bass

> Like the guitar, the Gibson SG bass has defined rock music with it's ultra-thin body, lightning fast neck and distinctive double cutaway shape. One Sidewinder humbucker

and one Mini-Humbucker combine to give you all the necessary tones while the set neck gives you the sustain you need.

EB-O™ bass

Authorized by Gibson USA

> Like the one pickup original at a price you gotta love! Plus... the short-scale and narrow neck make it soooo easy to play!

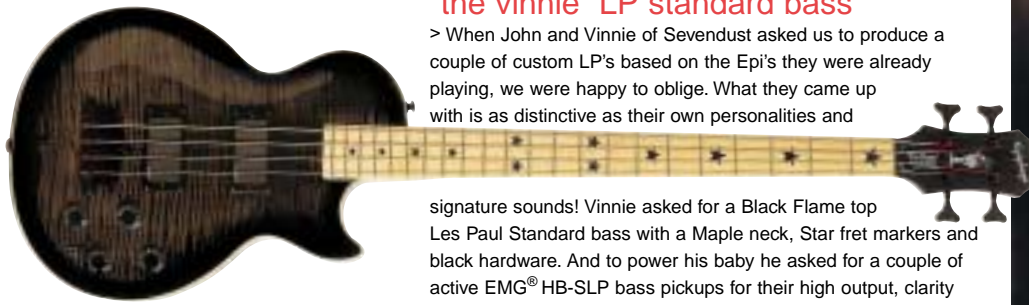

allen woody rumblekat bass

Authorized by Allen Woody

> Legendary bassist with the Allman Brothers and Gov't Mule, Allen Woody designed this bass in the spring of 2000 right before his untimely passing on August 26, 2000. Embodying the spirit of some of his favorite classic instruments of the 1960's, Allen combined a short-scale (30") for playing comfort with two mini bass humbuckers in the neck and middle positions to give it that

"signature" Woody rumbling, warm tone. Proceeds from the sale of this "Limited Edition" instrument support the Savannah Woody Education Fund.

“the vinnie” LP standard bass

> When John and Vinnie of Sevendust asked us to produce a couple of custom LP's based on the Epi's they were already playing, we were happy to oblige. What they came up with is as distinctive as their own personalities and

signature sounds! Vinnie asked for a Black Flame top Les Paul Standard bass with a Maple neck, Star fret markers and black hardware. And to power his baby he asked for a couple of active EMG® HB-SLP bass pickups for their high output, clarity and thunderous lows. Totally fat!

SEVENDUST

les paul® standard bass

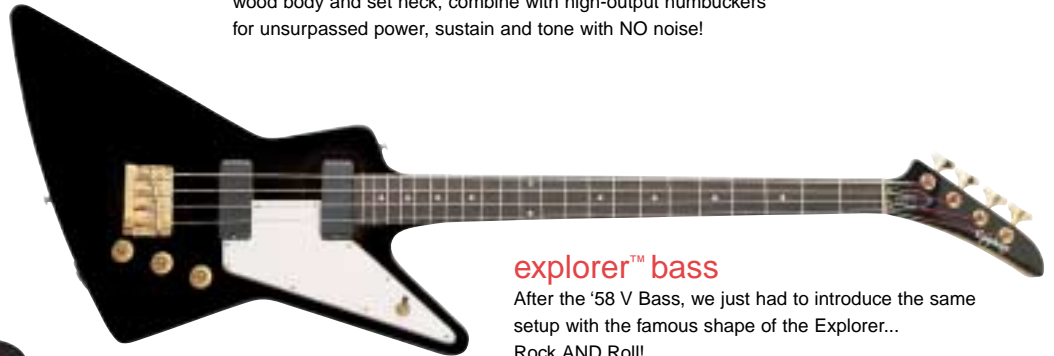

Authorized by Gibson USA

Based on Gibson's venerable model, this long scale bass features a set neck, dual bass humbuckers and 3-point bridge.

'58 flying V™ bass

Why should guitar players have all the fun? A lightweight Korina wood body and set neck, combine with high-output humbuckers for unsurpassed power, sustain and tone with NO noise!

explorer™ bass

After the '58 V Bass, we just had to introduce the same setup with the famous shape of the Explorer... Rock AND Roll!

accu-bass jr.

> With one split humbucker for noise-free operation, this full-size classic style bass delivers all the bass tone you need without leaving a gaping hole in your wallet!

dove

Authorized by Gibson USA

> Like the Hummingbird, this baby really sings with a Solid Spruce top but with Maple back and sides for added "punch"!

EL-00

Authorized by Gibson USA

> Our latest is a great looking Gibson based, small 00 size acoustic with Mahogany body and Solid Spruce top for that fabulous "vintage" tone. Simple and elegant, for the "parlor" or the studio, you can't go wrong with this Epiphone!

biscuit (Round Neck)

> With its traditional "biscuit" in the center of the resonator and round-neck, this resophonic monster works as well for bluegrass as it does for the blues.

With slide or fingers, the Biscuit COOKS!

MD-100

> Our all new metal resonophonic guitar. The MD-100's perfectly shaped round neck and smooth action is perfect for finger-style, slide or just flat out blues. This sweet thing is a must for any axe collection, at a price you can afford!

mandobird

> Just in case you wanted something a little different... We've got a crossover mando for those who like to cut across the grain! The new MandoBird is a new twist to a classic Gibson shape, the Firebird! With our custom MandoBird humbucking pickup and Mini Grover™ tuners, this little 4-String can do it all, performing equally well in traditional mandolin tuning or tuned low for jazzier "swing"! (Comes with Case)

chet atkins SST

Authorized by Gibson USA

> Chet Atkins and Gibson created the FIRST Solid-body acoustic. Then... Epiphone and Chet made it affordable. Computer designed body cavities give it great acoustic properties while the piezo system and new active electronics give it even string-to-string response.

Chet Atkins C.B.A.

chet atkins CEC

> When Chet Atkins put his name on an instrument, you know it had to be good! Similar to the Chet SST in construction, this Solid-body acoustic features active electronics and lets you "plug in" without feedback.
